

Bug on the Brain by President Jay Myers

Hey Fellow VW people, looks like I missed out on two more fun events lately due to my assistance at the Pink Palace moving two huge mail processing machines a weekend for the last five weeks with five more to go. I heard all the great time I missed from the scavenger hunt which I wanted to do so bad because I could of won with that high octane burning custom extended cab oval bug truck. Ha Ha

The fix your day clinic went real good with over twenty VW 's or so. I did want to BBQ for everyone like Bruce did last year but again I had to work. I would like to do this event in the fall with a lunch in etc.. I was gonna put me some brake parts on the front end of that bug truck of mine so I can stop evenly. Woops! Rainy weather they grab better except it pulls one way or the other. Humm!

Well we had a few days of great bus working weather except other outdoor duties pulled me away from the bus. I did hang out inside the bus while raining a few times drinking cold German beverage's! Some day I will use that bus for camping and fishing trips and like I said, someday! This year was the year to have my 61 vert done to give my daughter Megan. Well maybe after six years of college I may have it done by then!! Megan will be graduating May 12th at the Hammons Center at 7:00 and we'll be there at six. Any more info on that just give us a ring.

Can you believe the Junebug is a little over a month away. Its all coming together with a lot to talk about at the next meeting and trophy party. Well this is all I can think of tonight and hope to see everyone soon. Keep on buggen it!

Your President....Jay Myers
